

NATIONAL WORKSHOP

On

Preparedness and Resilience For Disaster Management & Health Emergency Scenarios

{Empowering Future Healthcare Professionals: Classroom to Crisis}

Wednesday: 27th September 2023

Jointly Organized by
PGIMER, Chandigarh
&

IUIDRR, National Institute of Disaster Management (NIDM)

Ministry of Home Affairs
{Govt. of India}, New Delhi

In collaboration with
Society for Critical Care Nursing (SCCN)[®]
PGIMER, Chandigarh, India

Introduction of Workshop

On September 27th, 2023, Post Graduate Institute of medical Education and Research (PGIMER), Chandigarh, in collaboration with India Universities and Institutions Network for Disaster Risk Reduction (IUIN-DRR), National Institute of Disaster Management (NIDM), Ministry of Home

Affairs, Govt. of India, New Delhi, and the Society for Critical Care Nursing (SCCN)®, organized a national workshop on "Preparedness and Resilience for Disaster Management and Health Emergency Scenario (Empowering future Healthcare professionals: classroom to crisis)." This collaborative effort was aimed to provide a platform for experts and professionals to exchange knowledge and insights on disaster management and health emergency preparedness. The Workshop was designed to provide participants with the essential knowledge and skills necessary to manage and respond to disasters effectively and efficiently.

Following were the key highlights of the workshop:

- ❖ Key Concepts in Disaster preparedness and management
- ❖ Curriculum Design and Integration in medical and nursing curriculum
- ❖ Interdisciplinary Collaboration
- ❖ Disaster Scenario Simulation (Mock drill)
- ❖ Triage Simulation
- ❖ Crisis Leadership
- ❖ Current State of Nursing Education in Disaster Management

- ❖ Post-Event Debriefing

Inauguration and Keynote Address:

The workshop was inaugurated by Director PGIMER, Prof. Naresh Panda. He emphasized the need for continuous trainings, hands on exercises and mock drills for healthcare workers in handling disasters and mass casualties. He highlighted that such workshops are very vital and key thing in raising awareness and building resilience within the healthcare community. Dr Panda also mention that the experiences and expertise gathered in this workshop represent a wealth of knowledge that can pave the way for innovative strategies and effective policies.

The workshop witnessed the presence of esteemed dignitaries:

- ❖ Prof. Vipin Koushal, Medical Superintendent-cum-Head, Department of hospital Administration, PGIMER, Chandigarh.
- ❖ Dr. Suman Singh, Director Health Services, UT Chandigarh.
- ❖ Prof. Jasbinder Kaur, Director Principal, GMCH 32, Chandigarh.
- ❖ Dr. T. Dileep Kumar, National President , Indian Nursing Council , New Delhi
- ❖ Dr. Santosh Kumar senior advisor and faculty , NIDM, New Delhi
- ❖ Dr. Preeti Soni, faculty from NIDM, provided valuable academic input.
- ❖ Senior faculties from PGI and other institutions also graced the occasion.

At the outset the workshop presentations have the insight in Global impact of Disaster and health care under risk by Dr Raman Sharma, Associate Professor (Hospital Admn) and Joint Medical Superintendent PGIMER, Chandigarh and Col Kironjot, Director MNS (Adm), Ministry of Defense, New Delhi on Leadership crisis during Disaster Situation.

Dr Raman Sharma Spoke about Global Impact of Disasters: Healthcare Under Risk, where he discussed about Economic Consequences of disaster on a nation, Impact on GDP and Economic Development, and Fragility of Healthcare Systems

Dr. Srinivasan Selvamani WHO Representative, (India) New Delhi, discussed about Disaster Resilience of Health Care Organization. Dr Srinivasan Selvamani added that Disaster resilience is a multifaceted concept that requires a holistic approach. It's crucial for health care organizations to regularly review and update their disaster preparedness plans to ensure they remain effective and aligned with the evolving needs and challenges of their communities.

Panel Discussion.

The objective of the workshop was further elucidated through insightful panel discussions. Experts unanimously agreed on the need to foster a deep understanding of disaster management strategies and to enhance preparedness in the face of health emergencies. Interdisciplinary collaboration emerged as a key theme, addressing critical issues related to disaster response, recovery, and mitigation.

The panel discussion focused on the imperative to incorporate disaster management into the curriculum of medical and nursing education programs. Recognizing the increasing frequency and intensity of disasters worldwide, the experts emphasized the critical role that healthcare professionals play in disaster response and recovery efforts.

The panel discussion illuminated the pressing need to incorporate disaster management into medical and nursing education, emphasizing that a well-prepared healthcare workforce is instrumental in safeguarding communities during times of crisis. The insights shared by the experts serve as a catalyst for action, inspiring stakeholders to work collectively towards a more resilient and prepared healthcare sector.

The panel was comprised of esteemed experts in the fields of disaster management, healthcare education, and clinical practice. The members included:

- Dr. T Dileep Kumar President INC, New Delhi
- Col Kiron Jeet, Director MNS (Adm) IHQ, New Delhi
- Prof. Ashok Kumar, Addl. Medical Superintendent, PGIMER
- Prof. Rajesh Chhabra, Dept of Neurosurgery, PGIMER
- Dr. Santosh Kumar, NIDM, New Delhi

Mock drills:

(1) Fire Safety Mock-drill

A fire safety mock drill is a practice exercise conducted to simulate a real-life fire emergency situation. Its purpose is to educate and train individuals on how to respond effectively and safely during a fire incident. Here are some steps and tips to conduct a fire safety mock drill.

Safe patient transfer Mock drill : The Safe Patient Transfer Mock Drill conducted during the workshop provided a valuable opportunity for participants to practice and refine their skills in transferring patients safely and efficiently during emergencies. The drill was conducted in a controlled environment, simulating real-life disaster scenarios, allowing participants to apply their knowledge and training.

Triaging Mock-Drill: The Triaging Mock-Drill at the workshop was an invaluable component of the training, providing participants with practical experience and invaluable insights into effective triage practices during emergencies. The dedication and professionalism displayed by all participants are commendable and underscore their commitment to delivering high-quality care, even in the most demanding circumstances.

Highlights of the Workshop:

Expert Insights: Eminent speakers shared invaluable insights on disaster management, drawing from their extensive experience in the field. Topics ranged from early warning systems to effective coordination in crisis situations.

Hands-On Training: Participants engaged in practical exercises and Mockdrill simulations, allowing them to apply theoretical knowledge in realistic scenarios. This hands-on approach was a cornerstone of the workshop's success.

Collaborative Learning: The workshop provided a platform for professionals from various disciplines to exchange ideas and best practices. This collaborative spirit is essential for effective disaster response.

Networking Opportunities: Attendees had the chance to connect with experts, forge new professional relationships, and strengthen their networks within the disaster management community.

The workshop received an overwhelming response, with participants hailing from diverse backgrounds, including healthcare, emergency services, and disaster response agencies

Key Takeaways:

- ❖ Interdisciplinary Collaboration:
- ❖ The importance of collaboration between various stakeholders, including healthcare professionals, administrators, and disaster management experts, was underscored.
- ❖ Continuous Training and Education:

- ❖ The workshop highlighted the necessity for ongoing training and education for healthcare workers to effectively respond to disasters and health emergencies.
- ❖ Preparedness and Resilience:
- ❖ Building a culture of preparedness and resilience is crucial in mitigating the impact of disasters and health emergencies.
- ❖ Community Engagement:
- ❖ Engaging and empowering local communities is instrumental in enhancing disaster preparedness and response.

Recommendations suggested by eminent faculties

- ❖ Establishment of Training Programs module :
- ❖ Implement regular training programs for healthcare workers in disaster management and emergency response.
- ❖ Including Disaster content in Nursing and medical education.
- ❖ Conduct awareness campaigns to educate the health care institutions for disaster preparedness and health emergency protocols.
- ❖ Strengthening Inter-Agency Coordination:Foster stronger coordination between healthcare institutions, government agencies, and disaster management authorities.

09.45-10:00 am	Crisis Leadership in Disaster Management	Col Kiron Jeet, Director MNS (Adm) IHQ, of Ministry of Defence (Army)
10:00 – 10:15 am	Session Chair :	
	❖ Professor Jasbinderkaur, Director Principal, GMCH-32, Chandigarh	
	❖ Professor S.K. Gupta, Head, Dept. of Neurosurgery, PGIMER, Chandigarh	
	❖ Professor Nidhi Panda, Professor, Dept. of Anesthesiology, PGIMER, Chandigarh	
10:15 – 10:30 am	Task Assignment to Participants	
Inauguration Ceremony		
10.30- 11:00am	Inauguration Program	
11.00-11:30 am	High Tea with Guest	
11:30 -12:15 pm	An Emerging need to Include Disaster Management in Medical and Nursing Education Curriculum	<ul style="list-style-type: none"> • Dr. T Dileep Kumar President INC, New Delhi • Col Kiron Jeet, Director MNS (Adm) IHQ, New Delhi • Prof. Ashok Kumar, Addl. Medical Superintendent, PGIMER • Prof. Rajesh Chhabra, Dept of Neurosurgery, PGIMER • Dr. Santosh Kumar, NIDM, New Delhi
12:15 pm-12:30 pm	Structuring Strategies of Health Care Organization	Dr. Ashutosh Pathak Director- Academics, ICE (I) (The Institution of Civil Engineers India)
12:30 pm-12:45 pm	Post Disaster Need Assessment: An Overview	Dr. Avnveet Randhawa Faculty , NIDM , New Delhi
12:45 pm- 12:55 pm	Session Chair :	
	Prof. Sameer Aggarwal, Professor, Dept. of Orthopedic Brig Sunita Sharma, Brig MNS, HQ (Western Command) Prof. Neetu Sharma, Jammu Dr. S.L Swami, Chairmen, ICE (I), The Institution of Civil Engineers India	
12:55pm-1:30 pm	Mock drill	
	(A) Fire Safety Drill (B) Hospital Disaster Plan (C) Safe Hospital Transfer (D) Hospital Triageing	
1:30 pm-2:00 pm	Lunch	
2:00 pm -2:40 pm	Debriefing of Mock Drill	Dr. Ashish Aggarwal Dr. Ritin Mohindra Dr. Raman Sharma Dr. Preeti Soni
2:40pm-3:10 pm	Young Leadership Summit Fostering Role of Nurses in Disaster Management	Prof Sukhpal Kaur Prof Harmeet Kaur Mr. Mahendra Kumar Assist. Prof. Anita Adhikari Dr..Neena Veer Singh
3:10-3:25 pm	Open house Master Class: Disaster and Indian Preparation	Dr. Santosh Kumar, Faculty, NIDM
3:25pm	Valedictory and High Tea	

Workshop Conclusion note

The workshop served as an invaluable platform for knowledge exchange and collaborative learning, bringing together experts, practitioners, and stakeholders in the field of disaster management and health emergency response.

The primary objectives of the workshop were to enhance preparedness, build resilience, and strengthen the capacity of healthcare professionals, first responders, and relevant stakeholders in effectively managing disasters and health emergencies. Through a series of interactive sessions, presentations, and practical exercises, participants were exposed to a diverse range of topics including disaster risk assessment, early warning systems, emergency response planning, and the integration of health services in disaster management.

Participants gave their Takeaways and Insights:

Multi-Sectoral Collaboration: The workshop emphasized the critical need for multi-sectoral collaboration involving healthcare institutions, government agencies, non-governmental

organizations, and the community. The discussions highlighted the importance of a coordinated approach for effective disaster response and recovery efforts.

Risk Assessment and Preparedness Planning: Participants gained a deeper understanding of conducting comprehensive risk assessments and developing tailored preparedness plans. The incorporation of evidence-based practices and local context considerations were underscored as vital elements in this process.

Technological Advancements: The workshop showcased emerging technologies and innovative tools that can significantly enhance disaster preparedness and response. This included advancements in early warning systems, telemedicine, and data analytics for more efficient decision-making.

Community Engagement and Empowerment: Recognizing the pivotal role of communities in disaster resilience, discussions centered on strategies to engage and empower local populations. The workshop emphasized the importance of community-based education, training, and participatory planning.

Lessons from Case Studies: Notable case studies were presented, providing valuable insights into successful disaster management practices from various regions. These real-world examples served as practical models for adaptation and implementation in diverse contexts.

Recommendations for Future Action:

Continued Training and Capacity Building: It is recommended to organize regular training sessions and capacity-building workshops focused on disaster management and health emergency response. These should target a broad spectrum of stakeholders including healthcare professionals, emergency responders, and community leaders.

Establishment of Inter-Agency Coordination Mechanisms: Encourage the establishment of robust inter-agency coordination mechanisms at local, regional, and national levels to ensure seamless collaboration during emergencies.

Promotion of Research and Innovation: Support research initiatives aimed at advancing the field of disaster management and health emergency response. Foster innovation in technologies and methodologies to further enhance preparedness and resilience.

Advocacy for Policy and Regulatory Frameworks: Advocate for policies and regulatory frameworks that prioritize disaster preparedness and resilience within the healthcare sector. This includes incentives for institutions to invest in state-of-the-art infrastructure and training programs.

In conclusion, the Workshop on Preparedness and Resilience for Disaster Management and Health Emergency Scenario held at PGIMER, Chandigarh, provided a dynamic platform for knowledge dissemination and collaboration. The insights gained and recommendations proposed during the

workshop will undoubtedly contribute to strengthening our collective response to disasters and health emergencies.

We extend our gratitude to all participants, speakers, and organizers for their invaluable contributions to the success of this workshop. We look forward to implementing the outcomes and recommendations derived from this event, and to furthering our commitment to a safer, more resilient future.
